CHAIRMAN'S REVIEW

Dear Unitholders.

On behalf of the Board of Directors of Reef Corporate Services Limited, responsible entity of the Reef Casino Trust (the Trust), I present my review of the Reef Casino Trust for the six months ended 30 June 2019.

Key points

Net Profit, distributable profit

In the first half of 2019, The Trust reported a net profit of \$755,000 (2018: \$2.42 million) with a distributable profit* of \$1.51 million (2018: \$4.84 million). Unitholders' distributions classified as "finance costs" were \$755,000 (2018: \$2.42 million).

Unit distribution

A unit distribution of 3.04 cents per unit for the six months from January to June (2018: 9.71 cents) has been declared. Earnings per unit were 3.03 cents (2018: 9.71 cents). Unit distribution was 100% of distributable earnings.

Earnings before interest, tax, depreciation and amortisation (EBITDA) EBITDA was \$4.22 million (2018: \$7.40 million).

Trust income

Trust income, consisting mainly of rental income from the Reef Hotel Casino, was \$7.59 million (2018: \$10.46 million).

Trust distributable profit

Trust distributable profit* was \$1.51 million for the six months ended 30 June 2019 (2018: \$4.84 million).

Total Trust revenue (comprising mainly of rental income from the Reef Hotel Casino) was \$7.59 million (2018: \$10.46 million). The decrease was due to the challenging economic conditions in Cairns and the region.

Trust total expenses were 8.2% higher than 2018 due to higher insurance premiums and timing of maintenance costs.

^{*} Basis of preparation: Distributable profit is a non-IFRS measure that is determined in accordance with the Trust Constitution and used as the basis for determining distributions to unitholders. Distributable profit is determined as net profit for the half year, adding back distributions to unitholders which have been treated as finance costs in accordance with IFRS. The distributable profit has been audited by Grant Thornton Audit Pty Ltd. Refer to the auditor's report on page 18 of the Half Year Report for the half year ended 30 June 2019.

Earnings per unit	3.03	9.71	
Distribution per unit	3.04	9.71	

¹Under Australian Accounting Standards the first 50% of distributable profit is treated as "finance costs attributable to unitholders", with the remaining 50% treated as profit.

Unit distribution

The Trust has declared a distribution of 3.04 cents per unit or a total of \$1.51 million for the six months from 1 January to 30 June 2019. The record date was 28 June 2019 and payment will be made on 11 September 2019.

The first half year distribution was 100% of distributable profit. The Trust intends to continue its distribution policy to pay out "100% of distributable profit".

Trust balance sheet

The Trust balance sheet continues to be strong and healthy. The Trust's cash position remains positive and the Trust has adequate working capital. The Trust's interest only business term loan facility with the Bank of Queensland remains unchanged at \$13.5 million, expiring on 31 January 2022. The amount drawn down at 30 June 2019 was \$4.7 million.

Capital investment

Capital expenditure in the first half year of 2019 consisted mainly of operational requirements of the Reef Hotel Casino including a new cooling tower.

REVIEW OF PERFORMANCE AND STRATEGY AT REEF HOTEL CASINO PROVIDED BY THE CEO OF THE OPERATOR, CASINOS AUSTRIA INTERNATIONAL (CAIRNS) PTY LTD (CAIC)

Allan Tan, the CEO of the operator of the Reef Hotel Casino (CAIC) which is jointly controlled by Casinos Austria International Limited and Accor Casino Investments Pty Ltd, has provided his review as follows:-

Reef Hotel Casino CEO's Report

Trading and operating conditions in the first half year 2019

Economic and trading conditions were challenging in Cairns and the region:

- Softness in Cairns tourism This was at a level not experienced for a number of years, made worse by an
 extraordinary wet season in the 1st half of the year. This has affected tourism into Cairns and visitation to our
 complex. International visitation to Tropical North Queensland declined by 3.1% in the year ended March 2019.
 Overall, international flights into Cairns remained static with no growth. The number of domestic passengers has seen
 a decline of 4.6% in the six months ended June 2019 as reported by Cairns Airport. Cairns and the region saw weak
 consumer spending and increased local competition which has had an impact on casino slots gaming and to a lesser
 extent on hotel accommodation. 311 new hotel rooms in the competitive set were added to the Cairns market.
- A subdued national economy This was exacerbated by uncertainties and consumer anxieties leading up to the
 recent Federal election. One factor has been the escalating trade war between US and China. The Reserve Bank of
 Australia has reported that economic growth in Australia over the first half of this year has been lower than earlier
 expected, with household consumption weighed down by a protracted period of low-income growth and declining
 housing prices.
- Short term table gaming variability This was because of a soft gaming and Chinese tourist market including
 a soft Chinese New Year season, at a level not experienced in recent years. This has impacted on casino revenues.
 Chinese visitation declined by 5.9% into Queensland in the year ended March 2019. The Chinese economy has also
 slowed down. This has particularly impacted premium play.

Complex performance

Rental paid to the Trust

Total complex rentals to the Trust were 27.4% lower due to more challenging trading and economic conditions in 2019.

Casino

Overall casino revenues were 24.6% lower than last year.

- Electronic games
 - Revenues were 2.4% lower than 2018. We continued to implement measures and take action to increase our competitiveness in the local market in terms of marketing, promotions and entertainment.
- · Table games
 - Revenues were 51.5% lower than 2018. Premium revenues were impacted by an Australian industry wide downturn affecting premium play and also by a lower win rate by the casino compared to last year.

Reef Hotel Casino CEO's Report (continues)

Hotel

Overall hotel revenues were 3.3% lower than last year.

Rooms

Rooms revenues were 4.6% lower than last year which itself was a record high. Successful yield management, product packaging and leveraging off Accor's global and Australian network continue to be key to good performance management.

Food and beverage

Food and beverage revenues were 1.6% lower than last year. Our food and beverage facilities continued to play a key role in supporting our casino operations.

Complex cost control

My management team is committed to achieve the best possible outcome given the current challenging conditions including initiatives to cut operating costs.

Key strategies

The following key strategies will underpin and drive our overall performance of the complex for the 2nd half of 2019 under still challenging economic conditions. These will be coupled with the proven success of our management strategy and philosophy under our "One Complex, One Team, One Success" mantra.

Casino operations

Electronic Gaming

We will continue to advertise in Cairns and selected regions to target the visitor market. There will be a full promotion, entertainment and marketing program and continued investment in new gaming products.

Table Games

The further development of premium gaming activity will be undertaken both domestically and internationally. The immediate and short term outlook for the China market is somewhat uncertain given recent geo-political and economic developments.

Hotel Operations

Rooms

Our Pullman hotel will apply sharp yield management strategies to best manage an increased inventory in Cairns in 2019

Food and beverage

We will have a full entertainment program to strengthen BAR36's position as the best live entertainment venue in Cairns

CHAIRMAN'S REVIEW CONTINUES

Trust Outlook

The operator of the Reef Hotel Casino is Casinos Austria International (Cairns) Pty Limited (CAIC), jointly owned by Casinos Austria International Limited (CAIL) and Accor. The relationship between the Trust as the owner of the Reef Hotel Casino complex and CAIC as the operator continues to work well.

Queensland Government's proposed Global Tourism Hub (GTH)

The Queensland Government's GTH process continues. The Trust continues to engage with the Government.

As a brief recap, on 28 October 2017 the Queensland Government announced its proposed GTH policy for Cairns. The government's process continued during 2018 and looks like it will extend well into 2019 and possibly beyond.

The Trust continues to consider any appropriate future investment to expand. To this end, your Board is undertaking and continuing internal discussions with the Queensland Government. In response to the Department of State Development's request, a submission regarding the Government's investigation into a potential State Development Area to support the Tropical North Global Tourism Hub has been made.

The Government has imposed strict confidentiality obligations as part of its GTH process.

A brief operational outlook for the Trust

The second half year is traditionally the "high tourist season" in Cairns. The Trust has experienced a better start to the 2nd half compared to the start of the 1st half. However, economic and trading conditions in Cairns and the region remain challenging.

The Trust expects its balance sheet to remain strong and expects to continue to generate positive cash flows mainly via rental payments from the Reef Hotel Casino to the Trust.

The Trust's sole investment is the Reef Hotel Casino and so it is exposed to the risks inherent in the ownership of a single asset located in Cairns.

The Reef Hotel Casino's management strategy is to tightly manage performance under challenging conditions based on three key strategic areas – electronic gaming, table games and hotel operations.

Since 2000, the Trust has consistently delivered profits, declared unit distributions and carefully managed the business and corporate risks. The Trust intends to continue with its policy to distribute 100% of distributable income. The Trust Board remains committed to this.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE HALF YEAR ENDED 30 JUNE 2019

1. The Trust

Reef Casino Trust (the Trust) was established by a Trust Constitution dated 2 July 1993 as amended by supplemental deeds dated 30 November 1993, 19 September 1999, 31 May 2000, 8 August 2001, 14 April 2004 and 29 June 2005. The Trust is a registered managed investment scheme under the *Corporations Act 2001*. Reef Corporate Services Limited, a company domiciled in Australia, is the Responsible Entity of the Trust. The Trust is the owner and lessor of The Reef Hotel Casino complex in Cairns, North Queensland, Australia. The Trust is a for profit entity.

2. Basis of preparation

(a) Statement of compliance

These general purpose condensed interim financial statements of the Trust are for the six months ended 30 June 2019. They have been prepared in accordance with the requirements of the *Corporations Act 2001* and AASB 134 *Interim Financial Reporting*. They do not include all of the information required in annual financial statements in accordance with Australian Accounting Standards, and should be read in conjunction with the financial statements of the Trust for the year ended 31 December 2018 and any public announcements made by the Trust during the half-year in accordance with continuous disclosure requirements arising under the Australian Securities Exchange Listing Rules and the *Corporations Act 2001*.

AASB 16 Leases became effective on 1 January 2019 and has been applied for the first time in this set of financial statements. The nature and effect of changes arising from this standard is summarised in Note 3(a).

The interim financial statements were approved by the directors of the Responsible Entity on 23 August 2019.

(b) Use of estimates and judgements

The significant judgements made in applying the Trust's accounting policies and the key sources of estimation uncertainty were the same as those described in the financial statements as at and for the year ended 31 December 2018 except that with the application of AASB 16 there is no longer the need to apply judgment in lease classification for lessees.

3. Significant accounting policies

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Trust's last annual financial statements for the year ended 31 December 2018.

(a) New standards adopted

AASB 16 Leases

The trust has adopted AASB 16 Leases from 1 January 2019 using the modified retrospective approach. Accordingly, the information presented for 2018 has not been restated and is presented, as previously reported, under AASB 117 *Leases*.

Lessor accounting under AASB 16 is substantially unchanged from AASB 117. Therefore, AASB 16 did not have an impact for leases where the trust is the lessor. The site lease was previously classified as a finance lease under AASB 117. The trust recognised the carrying amount of the site lease immediately before transition of \$35,304,000 as the carrying amount of the right-of-use asset on 1 January 2019. There is no related lease liability. There is no impact on transition in respect of this lease.

3. Significant accounting policies (continued)

(a) New standards adopted (continued)

Impacts on transition

On adoption of AASB 16, the trust recognised lease liabilities in relation to land used as a car park which had previously been classified as an 'operating lease' under the principles of AASB 117. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate as of 1 January 2019. The weighted average lessee's incremental borrowing rate applied to the lease liabilities on 1 January 2019 was 4.30%.

The following is a reconciliation of total operating lease commitments at 31 December 2018 (as disclosed in the financial statements to 31 December 2018) to the lease liabilities recognised at 1 January 2019:

	2019 \$'000
Operating lease commitments disclosed as at 31 December 2018	142
Discounted using the lessee's incremental borrowing rate at 1 January 2019	6
Lease liability recognised as at 1 January 2019	136
Of which are:	
Current lease liabilities	67
Non-current lease liabilities	69
	136

The associated right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the balance sheet as at 31 December 2018. There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application.

The trust presents right-of-use assets in property, plant and equipment in the same line items as it presents underlying assets of the same nature that it owns. The combined carrying amounts of right-of-use assets recognised for site lease and car park was \$35,446,000 at 1 January 2019 and \$35,061,000 at 30 June 2019. The carrying amount of the site lease was \$35,304,000 at 31 December 2018.

The following is a reconciliation of the financial statement line items from AASB 117 to AASB 16 at 1 January 2019:

	Carrying amount at 31 December 2018 \$'000	Remeasurement \$'000	AASB 16 carrying amount at 1 January 2019 \$'000
Property, plant and equipment	98,608	142	98,750
Receivables	2,289	(6)	2,283
Lease liabilities	-	(136)	(136)
	100,897	-	100,897

Nature of change in accounting policy

Before the adoption of AASB 16, leases in which a significant portion of the risks and rewards of ownership were retained by the lessor were classified as operating leases. Payments made under operating leases were charged to the income statement on a straight-line basis over the period of the lease.

From 1 January 2019, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the trust. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the

3. Significant accounting policies (continued)

Nature of change in accounting policy (continued)

remaining balance of the liability for each period. The right-of-use asset is depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis.

At the commencement date, the trust measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the trust's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised. Additional rentals based on financial performance are not included in the measurement of lease liability and are recognised on a straight-line basis as an expense in profit or loss.

Subsequent to initial measurement, the lease liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in future lease payments resulting from a change in index or rate. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Right-of-use assets are measured at cost comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date less any lease incentives received, any initial direct costs, and restoration costs.

The trust depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The trust also assesses the right-of-use asset for impairment when such indicators exist.

Payments associated with short-term leases and leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

INDEPENDENT AUDITOR'S REPORT

TO THE UNITHOLDERS OF REEF CASINO TRUST

Report on the audit of the financial report

Opinion

We have audited the financial report of Reef Casino Trust (the Trust), which comprises the statement of financial position as at 30 June 2019, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Reef Casino Trust is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Trust's financial position as at 30 June 2019 and of its performance for the half year ended on that date; and
- b) complying with Australian Accounting Standards AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Trust in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter

How our audit addressed the key audit matter

Determination and recognition of revenue - Note 4. Revenue

The Trust leases its facilities to a related party, Casinos Austria International (Cairns) Pty Ltd (the Lessee). Accordingly the Trust's rental revenue is determined in accordance with the lease agreements between the Trust and the Lessee.

Rental revenue comprises two components: a base rent and a contingent rent. The base rent component is indexed yearly and recognised on a straight line basis over the lease term. The contingent rent component is based on the financial performance and results of the Lessee and is recognised when contractually due. The contingent rent component comprises the majority of total rental revenue.

This is a key audit matter given that it is material to the Trust's results and is recognised based on the financial performance and results of the Lessee.

Our audit procedures to address the risk of material misstatement relating to the determination and recognition of rental revenue included, amongst others:

- Assessing the design and implementation of management's controls over the determination and recognition of rental revenue:
- Agreeing the inputs to management's calculation of rental revenue are in accordance with the lease agreements and with the audited financial statements of the Lessee; and
- Assessing the appropriateness and sufficiency of the work performed on the Lessee's financial statements for the relevant period by the Lessee's auditor.

Information other than the financial report and auditor's report thereon

The directors of Reef Corporate Services Limited, the Responsible Entity of the Trust, are responsible for the other information. The other information comprises the information included in the Trust's half year report for the half year ended 30 June 2019, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Responsible Entity of the Trust are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Trust's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Trust or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the audit of non-IFRS information

Opinion on non-IFRS information

In our opinion, the non-IFRS financial information disclosed as distributable profit included in the chairman's review on pages 1 and 2 for the half year ended 30 June 2019 is prepared, in all material respects, in accordance with the basis of preparation set out on page 1.

Responsibilities

The directors of the Responsible Entity of the Trust are responsible for the preparation and presentation of the non-IFRS financial information in accordance with the basis of preparation set out on page 1 and for having regard to the guidelines set out in ASIC Regulatory Guide 230: Disclosing Non-IFRS Financial Information. Our responsibility is to express an opinion on the non-IFRS financial information, based on our audit conducted in accordance with auditing standards.
